

WORKSHOP ON FINANCIAL MARKETS

An interactive and informative workshop on financial markets was organized for the Commerce students of class 12 on 27th November, 2017.

This workshop was conducted by the alumnis of the school who are currently pursuing a certification course from the National Stock Exchange.

The workshop helped the students get an insight into the meaning of financial markets, the operation of the global financial markets, working of Money market, Capital market and the mode of investment in the financial markets through different instruments like T-Bills, Commercial Paper, etc.

The students were also given the opportunity of learning the functioning of a stock exchange and role of different stakeholders in the same.

This workshop also touched various aspects of the working of the global financial markets through real-time tracking of the price movements of the global stock market indices such as NIFTY50, SENSEX and S&P .
