

**THE EARTH IS MY HOME,
I PROMISE TO KEEP IT
HEALTHY AND BEAUTIFUL!
EARTH DAY CELEBRATIONS 2018**

PRIMARY DEPARTMENT

The Primary Department of Gyan Bharati School, Saket celebrated the Earth Day on **23rd April, 2018**. To mark the event, a special assembly was organized by the students of classes P3E and P4E.

The students presented a play which emphasized on the importance of 3Rs- REDUCE, REUSE AND RECYCLE in order to save our Mother Earth. A pledge to protect our earth is a routine feature of our assemblies through the year. The students and the teachers joined in with the choir group and lifted up their voices to the song, "*The Earth is my home, I promise to keep it healthy and beautiful*".

The students enthusiastically participated in activities which were planned by their teachers. Our little P1s and P2s celebrated the "Earth week" wherein they made journal books and recorded small tasks done by them on a daily basis such as throwing the trash in the dustbin, switching off the lights and fans etc. They also took a pledge to follow these things regularly in order to save the earth.

The students of P2 also made badges with a message - 'My Earth My Pal'. They happily pinned it on their shirts. Stories and poems were recited by the students based on Earth Day. They cleaned their classrooms as well.

'Reduce, Reuse and Recycle'- It is the only way to save the environment from getting deteriorated. As we know that it is important to learn these three R's and put them into practice. Emphasizing on the same, stories were narrated and discussed with the students of P3 focussing on the difference between 'Recycle' and 'Compost'. Throughout the week, each section of P3 cleaned the school campus and segregated the garbage into 'compost products' and 'recyclable products.'

The students of P4 made dustbins and pencil holders using tetra packs and plastic bottles. The main idea was to create awareness amongst students to use the waste products in the best possible way. As a part of earth day activity, the students of P5 mended books so that they could be reused!

The school campus was filled with heartwarming artworks and displays made by students of various classes using waste and recyclable products. These displays brought smiles to the viewer's eyes. Overall, the event was a great success inspiring the students to adopt practices to protect earth!

Earth Day Assembly

**LET'S JOIN HANDS ON EARTH DAY TO MAKE OUR EARTH
A BETTER PLACE TO LIVE IN!**
