

## **MODULE 2: NIGHT SESSION REPORT**

Z Life Education in association with Gyan Bharati School, Saket organized a night sky observation session at Camp Mustang, Sohna Road from 20<sup>th</sup> of April to the 21<sup>th</sup> of April, 2018. The session provided the enthusiastic astronomers with the opportunity to understand the concept of deep sky objects, astrophotography and pin hole construction and working.

During the day time students learned about pin hole construction along with clicking photographs. In the evening session activities using stellarium software was conducted with them.

Settled among the Araveli ranges, Camp Mustang offered the finest setting to see the night sky in its entire brilliance as the learners spotted various deep sky celestial objects. The session ignited their curiosity and powered the students to explore the wonders of the night sky for future.
