

CHANDIGARH TRIP REPORT

As it is rightly said," Travelling is a part of education."An excursion is not just a pleasure trip; it enhances the knowledge of the students beyond the four walls of classroom. To provide such an enriching experience to children, Gyan Bharati School organized an educational trip to Chandigarh for classes 4 and 5 from 20th Dec- 22nd Dec'18.

On reaching 'The Beautiful City',Chandigarh,children checked in the hotel. Post snacks and lunch, they were driven to Pinjore Garden, where the scintillating effects of light left the children mesmerised.

Next day, Children came across a dazzling collection of more than 2500 species of cactus at the Cactus Garden.Our next stop was the Rock Garden where our enthusiastic travellers were awestruck to see the beautiful sculptures and art pieces made of scrap and waste material,created by Mr.Nek Chand. Children enjoyed strolling in Rose Garden and looked at various types of roses.Next,a visit to the museum of Natural History ignited their love for science and history.Nature walk alongside the Sukhna lake enthralled them to such an extent that it revived their fatigued spirits. This was followed by a musical evening at the hotel where our little champs showed best of their dance moves.

Children developed real love for nature when they got a chance to visit Chattbir zoo the next day.The nature walk and bird watching session was a surreal experience for the children.

Children not only carried back home a life time of experiences with them but also new bonds of friendship which they will cherish forever!
