

"Fun Day" was organised on 30th December, 2016 on the school grounds during school hours. Students put up an array of game stalls while the eatable stalls were managed by parents and vendors from outside. Children's happiness knew no bounds as they spent an entire school day with friends, on the grounds at stalls set up by students themselves. For once students enjoyed food on the school premises which is otherwise not permitted by the school as the school encourages them to go for healthier food choices.

Not only was this truly "Fun" but it also provided students, some lessons in how to handle money. Thus we at Gyan Bharati School rang in the new Year accompanied by the winter break with a day full of good cheer and fun.
