

Report : ZLIFE EDUCATION THIRD SESSION

Date: 6th December, 2016

Gyan Bharati School has successfully been organizing Astronomy related activities in collaboration with ZLIFE Education on regular basis.

In the month of December a session on determining circumference of Earth under Module 1 was conducted in two components on 6th December.

In first session theory of the concept was discussed and in second session students were taken to ground and they performed the activity in group.

Students were very thrilled after completing this fascinating activity successfully.
